

TANGUY SHOWS ANOTHER SIDE OF THE ROCK REVIVAL WITH “LOVE OF MY LIFE”

With his new single “Love of My Life,” TANGUY reveals a more personal and emotional side of his story. Built around the idea that real love isn’t the perfect movie version, the song reflects on the highs, the lows, the memories, the challenges, and the person who remains beside you through it all. Honest, heartfelt, and deeply personal, “Love of My Life” is about choosing each other through real life, and recognizing the person who makes the entire journey meaningful.

Driven by powerful vocals, melodic guitars, and the arena-rock spirit at the heart of TANGUY’s music, the single expands the Rock Revival beyond adrenaline and attitude into something equally important: real emotion. Following releases including “Fire It Up” and “Goin’ For A Ride”, the new song shows another dimension of TANGUY playing his 12 string acoustic guitar while staying rooted in the timeless songwriting and melodies of arena rock.

“Love of My Life” and the official music video will be released on September 25.
